International Computing Centre

The UN International Computing Centre (ICC) has nearly 50 years of experience providing Information and Communications Technology (ICT) services to the United Nations family and related organizations. Its mission is to provide trusted ICT services and digital business solutions, sharing its expertise and ICT ecosystems to generate economies of scale that benefit its over 60 Clients.

ICC, as per its mandate, is the shared services ICT provider for the UN system, created by a resolution of the UN General Assembly in 1970. Over the past 49 years, ICC has acquired a strategic view of the ICT needs of its Clients. ICC has developed relevant expertise and a nuanced understanding of the complexities of their ICT environments. As a United Nations entity, ICC operates with UN privileges and immunities, and its cost-recovery business model uniquely positions it to meet the needs of its Clients.

ICC offers state-of-the-art services in information security, cloud computing, app-dev, data and analytics, intelligent/robotic process automation, Enterprise Resources Planning (ERP) and application hosting, Unified Communications, network and infrastructure management and more. ICC offers cost savings, business efficiencies and volume discounts based on the scale of its engagements.

Our Clients can focus on their substantive business while leveraging ICC’s services, which are built upon industry best practices and standards and follow a continuous improvement process cycle.

Strategic Partnerships
At-a-Glance

UNHCR appreciates the support provided by ICC and views this partnership as strategic.
Douglas Greene, CIO, UNHCR

“UNHCR appreciates the support provided by ICC and views this partnership as strategic.
Douglas Greene, CIO, UNHCR”

“With ICC’s data and analytics solutions UNJSPF can transform the way it does business. The data visualization is wonderful - a picture really is worth a thousand words!
Miharu Goto Gill, Chief, Enterprise Solutions, UNJSPF”

“We are pleased to renew our decade-long relationship with ICC and look forward to continuing to optimise the system with new technology and the most trusted service support.
Paul Raines, CISO, UNDP”

About ICC
ICC is the leading provider of Information and Communications Technology (ICT) services within the United Nations family. Over the last four decades, ICC has been continually expanding its services to Clients and Partner Organizations in various parts of the world and in various areas of ICT. Its data centres are in Switzerland, Spain and the US. For more information, please contact an ICC Business Relationship Manager at business@unicc.org or visit us at www.unicc.org.
