UN International Computing Centre

The UN International Computing Centre (UNICC) has nearly 50 years of experience providing digital business solutions to the United Nations family and related organizations. Its mission is to provide trusted services, sharing its expertise and ecosystems to generate economies of scale that benefit its over 70 Clients.

UNICC is a specialized entity providing digital business solutions to the UN family. UNICC is committed to delivering reliable digital services driven by best practices, offering world class technology, state-of-the-art infrastructure and a system-wide cross domain experience of knowledge and data, enabling Clients to achieve their SDG mandates through accelerated digital delivery.

Over the past 50 years, UNICC has acquired a strategic view of the technology needs of its more than 70 Clients and developed relevant expertise and a nuanced understanding of the complexities of their digital environments. As a United Nations entity, UNICC operates with UN privileges and immunities. Its cost-recovery business model uniquely positions it to meet the needs of its Clients. UNICC offers cost savings, business efficiencies and volume discounts based on the scale of its engagements.

UNICC Clients can focus on their substantive business while leveraging the organization’s nearly 50 trusted services and digital business solutions in five strategic operation locations around the world.

At-a-Glance

UNHCR appreciates the support provided by UNICC and views this partnership as strategic.
Douglas Greene, CIO, UNHCR

With UNICC’s data and analytics solutions UNJSPF can transform the way it does business. The data visualization is wonderful - a picture really is worth a thousand words!
Miharu Goto Gill, Chief, Enterprise Solutions, UNJSPF

We are pleased to renew our decade-long relationship with UNICC and look forward to continuing to optimising the system with new technology and the most trusted service support.
Paul Raines, CISO, UNDP
