Who We Are

The United Nations International Computing Centre (UNICC) has over 50 years of experience as the largest strategic partner for digital solutions and cybersecurity within the United Nations system. We design and deploy transformational digital tools and programmes to support over 90 Clients and Partner Organizations in fulfilling their mandates.

UNICC is committed to delivering innovative, forward-looking and reliable system-wide solutions in line with the UN Secretary-General's Strategy on New Technologies, the UN Secretary-General's Roadmap for Digital Cooperation and the Common Agenda. With our world-class Cybersecurity Centre of Excellence, data and analytics practice and an array of platform, software and infrastructure solutions, UNICC serves the entire of the UN family and other international organizations with similar missions and values for the benefit of the world.

The UNICC Advantage

As a UN system organization, UNICC preserves and protects UN organizational assets and data integrity under the auspices of the UN Convention on Privileges and Immunities of 1946.

Innovation

Technology is rapidly evolving and UNICC is committed to remaining ahead of the curve, providing innovative solutions and using data to design cutting-edge digital tools to confront global challenges and help support the implementation of the SDGs.

As a member entity of the UN family, UNICC is intimately familiar with the needs and requirements of the system and manages a cybersecurity services catalogue of over two dozen services. UNICC functions as a hub for cybersecurity expertise and operational capacity, with over 200 cybersecurity practitioners focusing on building, implementing and managing cybersecurity solutions currently used by more than 50 UN organizations, agencies and entities.

Gender, Diversity and Inclusiveness

UNICC has made gender, diversity and inclusiveness central to its mission in serving its stakeholders. As we look forward to the Global Digital Compact led by the UN Secretary-General's Envoy on Technology and the Summit of the Future in September 2024, we are committed to bringing equality into the technology field, with solutions designed and developed by and for girls and women to meet SDG 5: Gender Equality.

New Staff

2022 UNICC Director's Report

The reason UNICC was created 50 years ago and why we still exist is because we are a force multiplier. We offer the most trusted and secure way for UN organizations to utilize shared technology, and now digital solutions, effectively.

Sameer Chauhan
Director, UNICC
