The UN International Computing Centre (UNICC) has 50 years of experience providing digital business solutions to the United Nations family and related organizations. Its mission is to provide trusted services, sharing its expertise and ecosystems to generate economies of scale that benefit its over 70 Clients.

UNICC, as per its mandate, is the shared digital business solutions provider for the UN system, created by a resolution of the UN General Assembly in 1970. Over the past 50 years, UNICC has acquired a strategic view of the technology needs of its Clients and has been continually expanding its services in various parts of the world and in various areas.

UNICC offers state-of-the-art services in information security, cloud computing, app-dev, data and analytics, Robotic Process Automation, Enterprise Resources Planning (ERP) and application hosting, Unified Communications, network and infrastructure management and more. UNICC offers cost savings, business efficiencies and volume discounts based on the scale of its engagements. As a United Nations entity, UNICC operates with UN privileges and immunities, and its cost-recovery business model uniquely positions it to meet the needs of its Clients.

Our Clients can focus on their substantive business while leveraging UNICC’s services built upon industry best practices and standards.
